**BLUNET
MASTER DONGLE
AT 130 4006**

The compact design of the station in a single mobile stand is primarily intended for emission testing stations for passenger cars and tractors.

The package includes new measuring modules for the Analyzer (AT508) and Smoke Meter (AT608) equipped with ATAL measuring optics and key innovations that are protected by several patent applications and significantly increase the reliability of these devices and the comfort of their use.

FIXATION SPLINT HEATED PROBE

Fixation splint

(AT1046027)

Length

2200 mm

Weight

2 kg

For heated probe

6 m

Optional for

AT 408 and AT 608
